http://is.gd/Party_For_Everybody

Dear comp.os.vms collegiates,

Our most cordial greetings.

This is the '35th Anniversary of VMS' Communique from the DELTA:: Node of the VMS Liberation Front, the Vernon Preservation Underground, on this august Thursday, the 25th of October 2012.

<http://en.wikipedia.org/wiki/Festschrift>

Our contribution to the 35th Anniversary 'Festschrift' for Vernon is initially comprised of the following four releases:

LiBREVMs.LMFGEN.OpenVMS.Tru64.OSF1.ULTRIX.v1.2.WinALL.x86.x64.KEYGEN-VLF

Stromasys.CHARON-VAX_Xx_66x0.v4.0.Build.122-04.Retail.WinALL.x86.x64.Cracked-VLF

Stromasys.CHARON-VAX_Xx_66x0.v4.1.Build.134-02.Retail.Win7.W2K8.x86.x64.Cracked-VLF

Stromasys.CHARON-AXP_4100_DS_ES_GS.v4.1.Build.129-04.Retail.WinALL.x64.Cracked-VLF

They can be downloaded from the Usenet Binaries Newsgroup:

alt.binaries.warez

<https://www.binsearch.info/?q=%22-VLF%22>

And examined, at your discretion, though the VMS Liberation Front make no presumption that any of the comp.os.vms collegiate would be inclined, by ethic, to so do.

However, the exigent relevance of, and the context, motivation, and purpose for, these releases can be readily apprised, without compromise, in this comprehensive NFO text file:

<http://is.gd/LiBREVMS>

We trust that the collegiate will be quaffing quality lagered products in celebration of the grand occasion of the 35th Anniversary of our beloved VMS and will be declaring solemn oaths and proposing bold toasts to the next 35 years; the VLF certainly will be.

We thank the comp.os.vms collegiate for their attention.

Best regards,

Subcommandante BYPASS and Subcommandante XDelta
