

HP 9000 Series 500 Computers

Pricing Information*

Effective date: August 1, 1985

* All data and prices are subject to change without notice.
All prices include factory base plus freight in U.S.A.

System Configurations

The HP 9000 Series 500 is available in two primary configurations: the Model 520 (9020) integrated workstation version, and the Model 550 (9050) in the new Hewlett-Packard modular design.

The Series 500 computers offer choices of BASIC and HP-UX operating systems. BASIC is supported on the Model 520 only. HP-UX is supported on both Models 520 and 550.

For each model there is a base system and bundled system configurations. The base system includes all standard features. The bundled system includes the base system plus several factory installed options or software offered at a discounted price.

This pricing guide contains only HP part numbers, option numbers, and corresponding prices. See your HP sales representative for the HP 9000 Series 500 Configuration Guide for information on how to configure your system.

HP offers various hardware and software support services. This pricing information guide lists the hardware support services with the prices of system configurations. Billing on all monthly maintenance charges can be made annually, semiannually, or on a quarterly basis. Software support services are listed separately.

Monthly Maintenance Charges

Category	Place of Service	Response Time
Field (FMMC)	Return to HP. Shipping at user's expense.	—
Product (PMMC)	Flat charge within Zone 1 (0-100 mile radius from the HP maintenance source).	Next Day
Basic (BMMC)	Flat charge within Zone 1 (0-100 mile radius from the HP maintenance source).	Next Day
Standard (SMMC)	Flat charge within Zone 1 (0-100 mile radius from the HP maintenance source).	Four Hours

Series 500 Base Systems

Product No./Option No.	Description	Price	BMMC	SMMC	Total
9020A	Model 520 Workstation Computer base system with standard 12.2-inch, color CRT display, 2 Mbyte RAM, 5¼" Flexible Disc, ASCII Keyboard and single I/O Processor.	\$30,000.	\$ 80.	\$ 87.	
Opt. 245*	Replace 4 x 512 Kbyte RAM with 2 x 1 Mbyte RAM	500.			
Opt. 500†	One floating point CPU	N/C	3.	4.	
Opt. 600†	One additional floating point CPU (2 total)	4,500.	6.	8.	
Opt. 700†	Two additional floating point CPUs (3 total)	8,500.	9.	12.	
Opt. 605‡	5¼" 256 Kbyte Flexible Disc	N/C	N/C	N/C	
Opt. 610‡	10 Mbyte Fixed Disc Drive plus 5¼" 256 Kbyte Flexible Disc	4,540.	23.	29.	
9020B	Model 520 Workstation Computer base system with a 12.2-inch, high-performance monochrome CRT display, 2 Mbyte RAM, 5¼" Flexible Disc, ASCII Keyboard and single I/O Processor.	35,000.	76.	95.	
Opt. 245*	Replace 4 x 512 Kbyte RAM with 2 x 1 Mbyte RAM	500.			
Opt. 500†	One floating point CPU	N/C	3.	4.	
Opt. 600†	One additional floating point CPU (2 total)	4,500.	6.	8.	
Opt. 700†	Two additional floating point CPUs (3 total)	8,500.	9.	12.	
Opt. 605‡	5¼" 256 Kbyte Flexible Disc	N/C	N/C	N/C	
Opt. 610‡	10 Mbyte Fixed Disc Drive plus 5¼" 256 Kbyte Flexible Disc	4,540.	23.	29.	

* If either Opt. 245 or 250 is desired, it must be specified at time of order.

† Opt. 500, 600 or 700 must be specified at time of order.

‡ Opt. 605 or 610 must be specified at time of order.

Series 500 Base Systems (cont'd)

Product No./ Option No.	Description	Price	BMMC	SMMC	Total
9020C	Model 520 Workstation Computer base system with a 13-inch, high-performance color CRT display, 2 Mbyte RAM, 5¼" Flexible Disc, ASCII Keyboard and single I/O Processor.	\$50,000.	\$198.	\$247.	
Opt. 245*	Replace 4 x 512 Kbyte RAM with 2 x 1 Mbyte RAM	500.

HP 9000 Family Software Support Services

Hewlett-Packard's software support services span a broad range - from personal, on-site assistance to materials-only services. These levels give great flexibility in choosing the level of HP support to meet changing requirements.

The software support product structure is different for operating systems software and subsystem and applications software.

Operating Systems Support

The following services are available to support a central system:

Account Management Support (AMS) - Provides a local account SE, on-site assistance, one Response Center caller (a System Manager) and one alternate for telephone assistance, and a Software Materials Subscription.

Response Center Support (RCS) - Provides one Response Center caller and one alternate for telephone assistance and a Software Materials Subscription.

Software Materials Subscription (SMS) - Provides software and manual updates, *Software Status Bulletin*, and *HP communicator* magazine. Note: Updates to ROM-based operating systems are not provided.

The following services are available to support an additional system:

Additional System Coverage - Extends AMS or RCS coverage on the operating system to one additional system under the same System Manager. All support is delivered through the central system.

Extended Materials Support - Extends software materials subscription by providing the right to make one copy of all central system materials for use on one additional system.

The following optional services are also available for central or additional systems:

Additional Response Center Caller - Provides one additional caller and one alternate for access to the HP Response Center.

Manual Update Service (MUS) - Provides one copy of updates to software reference manuals.

Software Notification Service (SNS) - Provides issues of the *HP communicator* and *Software Status Bulletin*.

Subsystem and Application Software Support

Software Materials Subscription (SMS) - Provides software and manual updates, *Software Status Bulletin*, and *HP communicator* magazine. Note: SMS must be ordered for each piece of subsystem and application software on the system.

Extended Materials Support - Extends Software Materials Subscription by providing the right to make one copy of all central system materials for use on one additional system.

Manual Update Service (MUS) - Provides one copy of updates to software reference manuals. Note: MUS for application software is ordered at the software product level. MUS for subsystem software is ordered at the Category level (see tables).

In addition, all HP software, except operating systems, is separated into software support groups. For subsystem software, these groups are referred to as "Categories". For application software, they are referred to as "Families".

If AMS or RCS levels of support are selected for the operating system, Category and Family Support products must be ordered for subsystem and applications software respectively:

Category Support: Central System - Provides local assistance and/or access to the Response Center through the System Manager in accordance with the level of support selected for the operating system.

Category Support: Additional System Coverage - Extends Category Support on the central system to one additional system. All support is delivered through the central system.

Family Support: Central System - Provides local assistance and/or access to the Response Center in accordance with the level of support selected for the family. Entitles customer to a new Response Center caller and an alternate for each family supported.

Family Support: Additional System Coverage - Extends Family Support on the central system to one additional system. All support is delivered through the central system.

Product Numbering for Support Services

A plus symbol followed by a three character suffix is attached to each software product in the following table. The first letter on the suffix identifies the software support service:

Letter	Software Support Service
C	Category Support
H	Response Center Support
P	Additional Response Center Caller
Q	Manual Update Service
S	Software Materials Subscription
T	Account Management Support
V	Additional System Coverage
W	Extended Materials Support

The second and third letters designate the media option, if one is required. A media option must always be specified for the operating system on a central system. If the software configuration on an additional system is not the same as, or a subset of, the central system, then a media option must be specified for the additional system.

For example, in the first line from the following list of Series 500 Operating Systems Support Services, the Response Center Support (RCS) is ordered for the BASIC 97050B operating system by specifying 97050B+H42. The 5¼" internal flexible disc is the media selected for material updates. The monthly costs for each service are shown below the three-character suffix.

Series 500 Operating Systems Support Services

Software Product No.	AMS	RCS	SMS	Additional System Coverage	Extended SMS	MUS	Additional Caller
97050B BASIC Operating System				+ V00* \$50/mo	+ W00* \$15/mo	+ Q00 \$10/mo	+ P00 \$100/mo
5¼" internal flexible disc option	+ T42 \$245/mo	+ H42 \$90/mo	+ S42 \$55/mo	+ V42 \$5/mo	+ W42 \$5/mo	N/A	N/A
97070C HP-UX for 9020, Single-user				+ V00* \$60/mo	+ W00* \$20/mo	+ Q00 \$10/mo	+ P00 \$100/mo

Purchase Plans

Contact one of the Hewlett-Packard worldwide Sales and Service offices for specific prices and plans.

Service

Hewlett-Packard maintains well-trained and well-equipped service departments at more than 170 offices worldwide to professionally handle our customers' maintenance and service requirements. Contact one of the HP Sales and Service offices for specific prices and plans.

Maintenance Services

Maintenance agreements are available for all HP computer system products to provide priority service response and a fixed, budgetable annual cost regardless of the amount of service actually required. If a maintenance agreement is not required, Hewlett-Packard also offers service at a Standard Repair Charge (STREP) that allows you to know the actual cost of repair before it is made. If neither a maintenance agreement nor STREP is the best solution, HP offers service on a time-and-materials basis.

Contact one of the HP worldwide Sales and Service offices for more details on these maintenance plans.

Warranty and Service

Warranty Statement

Hewlett-Packard products are warranted against defects in materials and workmanship. For Hewlett-Packard computer system products sold in the U.S.A. and Canada, this warranty applies for ninety (90) days from date of shipment.*

Hewlett-Packard will, at its option, repair or replace equipment which proves to be defective during the warranty period. This warranty includes labor, parts and surface travel costs, if any. Equipment returned to Hewlett-Packard for repair must be shipped freight prepaid. Repairs necessitated by misuse of the equipment, or by hardware, software or interfacing not provided by Hewlett-Packard are not covered by this warranty.

HP warrants that its software and firmware designated by HP for use with a CPU will execute its programming instructions when properly installed on that CPU. HP does not warrant that the operation of the CPU, software or firmware will be uninterrupted or error free.

NO OTHER WARRANTY IS EXPRESSED OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, THE IMPLIED WARRANTY OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. HEWLETT-PACKARD SHALL NOT BE LIABLE FOR CONSEQUENTIAL DAMAGES.

* For other countries, contact your local HP Sales and Service office to determine warranty terms.
