

# I/O Interfaces

Diagram of front panel

| Name                 | Description                                                                                                                                                         |
|----------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| SCSI Port            | Ultra SCSI on a 68-way SCSI-2 (socket)                                                                                                                              |
| Ethernet             | Interface 10/100 Base TX interface on a RJ45 (socket)                                                                                                               |
| Serial Ports A and B | 2 x RS232 interfaces on a 25-way D-Type                                                                                                                             |
| Parallel             | P1284 interface a 25-way D-Type (socket)                                                                                                                            |
| Keyboard/Mouse       | Sun Keyboard/Mouse interface on an 8-way Mini-DIN (socket)<br>PC Keyboard interface on a 6-way Mini-DIN (socket)<br>PC Mouse interface on a 6-way Mini-DIN (socket) |
| Mains                | Inlet on an IEC EN60-320 (plug)<br>Switch (controls main supply) Fuse                                                                                               |
| PC Card              | Two slots for two Type-I or II, or one Type-III card                                                                                                                |
| Run/Stop             | Run/Stop switch                                                                                                                                                     |
| PCI Card             | One half size (7") slot                                                                                                                                             |
