UltraBook extended warranty and service options are available in a separate document. For information please call Tadpole-RDI sales at (800) 734-5483 or (760) 929-0992.

Introduction

UltraBook™ is a portable workstation equivalent to Sun's Ultra desktop in a slim 7.5 pound notebook. UltraBook is available in various configurations including 200 MHz or 167 MHz UltraSPARC processor, 14.1-inch or 12.1-inch active matrix display, PCI based graphics or Creator® 3D graphics, up to three removable internal hard disk drives and up to 512 MB of memory. UltraBook supports unmodified Solaris® 2.5.1, Solaris 2.6, or Solaris 7.

Tadpole-RDI supports the UltraBook with advanced power management tools and networking tools. With PowerTool an end user can select the power usage mode they prefer and can obtain battery life status. AutoNET is a framework of software tools that supports nomadic UltraBook users. AutoNET performs automatic network connection and administration, and system management. These capabilities are provided on the VWA CD, which is a standard item with every UltraBook.

Configuration Guidelines

The UltraBook base systems are available with the following options:

- **UltraSPARC Processor**

1. Model 200: 200 MHz UltraSPARC 1
2. Model 170: 167 MHz UltraSPARC 1

- **Color Active Matrix LCD for UltraBook**

1. 12.1-inch 1024x768 Active Matrix Color Display (not available with system using Creator 3D graphics)
2. 14.1-inch 1024x768 Active Matrix Color Display

- **Graphics options**

1. PCI based ATI RAGE LT
2. Sun Creator 3D double buffered 24-bit graphics

- **Internal Disk Drives for UltraBook**

Options available with PCI based graphics

1. One removable hard drive plus battery
2. Two removable hard drives plus battery
3. Three removable hard drives (replaces battery)

PLEASE NOTE: The battery or 3rd disk drive bay (right front bay) is defined at time of manufacture. The 3rd disk drive or battery are NOT interchangeable.

Options available with Creator 3D Graphics

1. One removable hard drive plus battery
2. Two removable hard drives (replaces battery)

PLEASE NOTE: The battery or 2nd disk drive bay (right front bay) is defined at time of manufacture. The 2nd disk drive or battery are NOT interchangeable.

- **Field installable Memory options**

UltraBook has two memory slots available. Memory must be installed in matched pairs. The following memory options are supported and memory configured systems are installed according to these guidelines. Memory is user upgradable.

Options for Model 170

1. 64 MB (2 x 32MB)
2. 128 MB (2 x 64MB)
3. 256 MB (2 x 128MB)
4. 512 MB (2 x 256MB)

Options for Model 200

1. 128 MB (2 x 64MB)
2. 256 MB (2 x 128MB)
3. 512 MB (2 x 256MB)

STANDARD FEATURES

The following standard features are included with every Tadpole-RDI UltraBook system.

167 MHz UltraSPARC processor, 14.1-inch or 12.1-inch diagonal active matrix LCD, 1024x768 resolution, one removable hard drive, 64 MB memory, PCI based graphics, PCMCIA, integrated trackpad, battery pack, AC adapter, parallel/serial expansion cable, 13W3 to VGA adapter, Fast/Wide SCSI adapter, carry case, manual set, Solaris 2.6 CD with RTU, and VWA CD.

The model numbers on the next page define UltraBook systems with the following format:

U16-XX-XX-XXA = Specifies the processor MHz speed; 16 or 20.

UXX-14-XX-XXA = Specifies the LCD panel diagonal size in inches; 12 or 14.

UXX-XX-XX-XXA = Specifies the number of hard drives, 1X, 2X or 3X for 1, 2, or 3 drives respectively.

UXX-XX-XX-XXXXA = Specifies memory configuration, 64, 128, 256 or 512 MB.

UXX-XX-XX-XXA = Specifies graphics configuration, P = PCI, C3 = Creator 3D
