

Rebooter V1.12

© 2005 by Roman Keller

Change Log

V1.1 : Installing directly on drice c.

V1.11 : Some graphical improvements like a new background graphic.

V1.12 : Some bugs fixed.

Features ?

- Rebooting of your Nokia 9500/9300 without removing the battery.

Where to get the latest version ?

You can find the latest version on www.romankeller.ch

Where can you get support ?

I can only support you in my forum on my website and not by email.

How to install ?

First install 9500-opl-public-2004-11-28.sis on your Nokia 9500/9300 and after that install Rebooter_112.sis.

It's very important that you install it in this order, otherwise an error will occur.

Licence ?

Rebooter is Freeware !

But I would be very glad about your guestbook entry on my website or a donation.
