License Management Facility (LMF) Information

An LMF Product Authorization Key (PAK) allows you to access a software product and, on the Layered Products CD–ROM, its product documentation in Bookreader format. A PAK must be registered and loaded before you can install any products from a Digital software CD–ROM. Each product has a unique LMF PAK name. An LMF PAK should be included in your kit for each product ordered.

Contents of Kit

Your kit contains the following:

- Indented Bills Report (BIL) and bill of materials (BOM)

  Please read the BIL and BOM enclosed in this kit, and check to see that all items listed are in your kit. If your kit is damaged, or if parts of it are missing, call your Digital representative.

- Media

  If you ordered media, you will find the media and the *DECmigrate Version 1.1A for OpenVMS AXP Systems: Installation Guide* in this kit.

- CD Booklet and Read First Letter

If you ordered the <REFERENCE>(cd_product_name), the *Alpha AXP Software Compact Disc User's Guide* (CD user booklet) and the *Read Before Installing or Using DECmigrate for OpenVMS AXP* letter accompany the CD distribution kit. The booklet describes the directory names on the CD media where subsets are located, lists the documentation files provided for each product, and contains information on using the Bookreader to read the Bookreader formatted files form the CD device.

If you ordered DECmigrate separately, the *Read Before Installing or Using DECmigrate for OpenVMS AXP* letter accompanies the CD distribution kit. There is no additional booklet.

- Documentation

  If you ordered optional hardcopy documentation, your shipment includes the following DECmigrate manuals:

  – *DECmigrate Version 1.1 for OpenVMS AXP Systems: Translating Images* (AA–PSGMB–TE)

  – *DECmigrate Version 1.1A for OpenVMS AXP Systems: Installation Guide* (AA–PSGNA–TE)

  If you have the <REFERENCE>(cd_product_name), the documentation is on the CD–ROM in Bookreader format. To read the Bookreader files from the CD, you or your system manager need to define the logical names DECW$BOOK and DECW$BOOKSHELF as described in the *Alpha AXP Software Compact Disc User's Guide* (CD user booklet) that accompanies the CD distribution kit. To read the DECmigrate documents, use the Bookreader from a DECwindows terminal or workstation:

  1. Invoke the Bookreader (see the CD user booklet); the initial or navigation Bookreader window appears.
  2. Within the navigation window, select the topic ''Programming Tools and Languages.''
  3. Select the topic ''DECmigrate for OpenVMS AXP.''
  4. Select the appropriate DECmigrate document; the table of contents will appear.

- Software Product Description (SPD)

  The SPD (AE–PSGPB–TE) provides an overview of the DECmigrate kit and its features as well as the technical environment in which the product is supported. The SPD is provided either in hardcopy or online format in the kit.
